ARCHITECTS BRING NEW DESIGN STUDIO TO PLEASANTVILLE BUSINESS DISTRICT

PLEASANTVILLE, NEW YORK – December 09, 2002 – Fivecat Studio / McCarthy LePage Architects, P.C. has opened a new architectural design studio at 48 Wheeler Avenue in the thriving downtown business district of Pleasantville, New York. Located on the 2nd floor of a three-story brick building, the firm's new 1900 SF facility includes administrative offices and a traditional open-plan design studio, fully wired with state-of-the-art computer aided design (CAD) workstations.

A client reception showroom is currently being constructed adjacent to the studio and is designed to replicate a full-scale residential library. This separate facility will be open to the public in early 2003 and used for client meetings, small private seminars and product demonstrations.

Adjacent to the Pleasantville train station and formerly occupied by the Pleasantville Village Hall, the prominently located building was recently purchased by a local developer, rehabilitated and converted into three professional offices. Fivecat Studio was a design consultant for the rehabilitation project.

Fivecat Studio will continue to operate their current facility in Chappaqua, New York, but will relocate all administrative and client relation functions to their new Pleasantville location.

Established in 1999, Fivecat Studio / McCarthy LePage Architects, P.C. provides complete architectural services for residential and commercial projects throughout Westchester and Fairfield counties. The firm recently received a 2002 Design Award for Excellence in Interior Architecture from the Westchester / Mid-Hudson chapter of the American Institute of Architects (AIA).

The firm's website is located at www.fivecat.com.
